

METRATENS

PROGRAMMED ELECTRIC STIMULATOR

MUSCLE STIMULATION AND PAIN RELIEF

- Portable device provided with a belt clip
- Entirely automatic and programmed, very easy to use
- Power source : 9 Volts alkaline battery – 6 LR 61 (do not use saline batteries)
- Battery autonomy : 9 to 15 hours according to the stimulation power
- Stimulation current : bi-phasic zero DC average voltage
- Connection : DIN 3 or 5 plug out or $\varnothing 2$ plugging sockets (for adhesive electrodes)
- Delivered intensity : from 0 to 80 mA on 500 Ohms impedance
- Adjustment by pushing-buttons : a button (+) to switch on and to increase intensity power, a button (-) to decrease power and to switch off
- 6 saved programs

Available in two types :

- TENS : 3 pain relief programs
- ANTALGIC : 6 pain relief programs

CHARACTERISTICS

- Size : 130 x 57 x 30 mm
- Weight with battery : 152g
- Warranty : 1 year
- Up to standard CEE. Directive 93/42/CEE according to medical devices
- Safety category. CEI class 1
