STIMOGYN BIO PLUS

URO-GYNAECOLOGICAL STIMULATOR with BIOFEEDBACK

Model STIMOGYN BIO-PLUS - 672-30E

Electrostimulator and Biofeedback 1 channel, portable operating on battery or network (220V - 50 Hz)

Incorporated automatic charger : recharge in 12 hours

Battery autonomy : 10 hours in stimulation, 6 hours in Biofeedback

Stimulation : bi-phasic zero DC average voltage

Adjustable power from 0 to 80 mA on 500 Ohms impedance

Adjustable frequency from 9 to 100 Hertz

Adjustable working time from 2 to 25 seconds

Adjustable resting time from 2 to 25 seconds

Pulse width 0,7 ms

Sequence lamp: Work-Biofeedback

Automatic calibration of the contraction strength

Visualization of the muscular contractions on a double light ramp

Calibre display

Biofeedback sequence lamp

Sensibility: 10 microvolts to 1 millivolt

Operating in :

- Stimulation only
- Biofeedback only
- Both Stimulation and Biofeedback alternately (every 2,5 minutes)

On back side :

- Charge lamp, battery fault lamp
- Output : vaginal probe DIN 3 or DIN 5
- Reference electrode output
- Mains plug and fuse
- Ground reference commutator

Size : 180 x 310 x 95 mm

Weight : 1,96 Kg

Provided wit power wire

Reference electrode and wire

Warranty : 1 year

Field of application :

- Sphincter incontinence
- Post-delivery reeducation
- Diagnosis
- Vesical instability
- No burn hazard

Up to standard CEE. Directive 93/42/CEE according to medical devices
